WISHING .

BY JOHN G. SAXE.

Of all the amusements of the mind,

From logic down to fishing.
There isn't one that you can find

So very cheap as wishing:

If we but rightly use it, And not, as we are apt to do,

wish-a common wish, indeed.

My purse was somewhat fatter,

As only gold can break it.

I wish-that sympathy and love,

And every base emotion, Were buried fifty fathoms deep

Beneath the waves of ocean.

And motives always pure; . . .

wish the good were not so few,

I wish the bad were fewer;

I wish that parsons 'ne'er forgot To heed their pidus teaching;

I wish that practicing was not

So different from preaching.

I wish that innocence were free

From treachery and slander;

I wish-that modest worth might be

That women ne'er were rovers; I wish that wives were always kind, And husbands always lovers.

Appraised with truth and candor;

I wish that men their vows would mind:

BEECHER ON THE FUTURE STATE

In his sermon a few Sundays ago,

is purely imaginary. Imagination is

been instructed more through its im-

agmation than through its reason. We

-literally, a place of fire and brim-

stone. I don't believe it, and you

I wish-that friends were always true,

And every human passion That has its origin above,

A very choice diversion, too,

Pervert it, and abuse it.

Among these is an anecdote of a famous fellow, belonging to King Homy, the Seventh, Queen Enzibeth's grandfather. This bird sitting on his perch in the palace yard at Westminster, used to hear the talk of gentlemen who came to the river to take the boats. And one day, while overlooking the busy traffic of the Thames, he fell from airee into the water; and while there, floating hopelessly, he cried: "A boat! Twenty pounds for a boat?" . A watermanies cued him, and took him to the king, demanding his twenty pounds. RADWAY'S PILLS. In RADWAY'S FILLS, the true principle of purgation is secured—not plone to the office of diemissing the faces and excrement from the bowels, buf those humons that are checked or stopped in their passage through the Skin, Kichiegs, Lungs, and all excreting and secreting functions; for if these excrementious secretions belonging to the skin, liver, lungs, kadneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgetive qualities of RADWAY'S PILLS extend to the sucretions of the SKIN, KIDNEYS, LIVER, &c.; whereas not one of the advartised Pfils claim to set beyond the bowels.

Mr. Wm. Lambert, First Assistant Engi-

neer, U. S. N., writes to Dr. & B. Hartman & Co., Lancaster, Pa., the following: "At the capture of New Orleans I was wounded in the right leg by a shell. The wound healed up, but a bad sore broke out near my ankie. Several doctors tried to benefit me but none succeeded. Tit was then that H eusland Stevens, me mber of congress, saw me, and, on learning the nature of my trouble, told me about Mishler's Herb Bitters, saying, it is the most wonderful com-bination of medicinal herbs I ever saw. I ever saw. I use it myself, and I know that it will cure you in a very short period. Try
it, my friend, try it. I will have it sent to
you' The result fully justified the high
opinion of Mr. Stevens regarding your bittion for its not was followed by a perfect

> Such is dyspensia. The stomach and the body are too intimately allied for the one to suffer without the other, so that dyspepsia and despondensy are inseparable. It may be added, too, that irritation of the stomach

ration of Hostetter's Bitters is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow peryades the system, the chronic uneasiness in the region of the stomach is lessened, and the nervous restlessness which characterizes the disease is abated. This improvement is not ransient. It is not succeeded by the return of the old symptoms with superadded force, is is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is net Il. The operion and anti-bilious properties of the preparation are secondary in importance to its tonic virtues. If there is an overflow of bile the secretion is soon brought within its proper limits, and if the biliary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The bitters also promote healthy evaporation from the surface which is particularly desirable at this season when the sudden spells of raw, unpleasant weather are ant to check the matural perspiration and produce congestion of the liver, coughs, and colds. The best safeguard against all diseases is bodily vigor, and this great vegetable restorative essentially promotes.

There are many matters of importance which will eighn the attention of the general council at this session.

The director of the mint at Philadelphia, in his annual report, made several recommendations regard ag an issue of small coinage that have been suc of small coinage that lave been record of the ever varying phases of business, of the prosperity of the city, department. Among others it is underet ood this official expresses an anxiety for an issue of silver coins of the half and quarter dollar denomininations, which shall be redeemable when pre sented in the amount of ten dollars, but which shall only be worth about seventy six cents on the dollar, the object being to do away with the fractional enriency.

of Boston, who has had some trouble with his flock, recently read the following notice when about to leave his pulpit for the day: "There will be a meeting of the society on Thursday evening. The first part of the evening will be devoted to prayer and conference, after which, if there is grace of God enough left in the breasts of the brethren, they will proceed to the transac-

a jury on Monday last, and a verdict of \$300 awarded to the plaintiffs. Two women, picked up in a beastly state of drunkenness on the streets of

Patterson, a few days since, upon be ing brought before the recorder, stated that they were on the way to their mother's funeral.

The Methodist wishes that Christian men would remember God in business affairs. Too many, it says if they were honest, would declare as the old man did who said: 'When I start on a deed of mercy and stop to deal in horses I never have good luck.
